"PLANT YOUR OWN TREE" ACTIVITY

It was an average Sunday... But for our children it turned to be a busy day rich in the events. Because they not only hosted guests but also participated in the event "Plant Your Own Tree" that was granted to us by the Church of Christ members. Everyone wishing to participate, from the youngest child to the eldest pupil, could choose the activity which he felt comfortable with. Some children were digging holes, others were feeding water or holding saplings – nobody hung around with nothing to do. Now, every child at our Center can proudly say: "I've got my own tree."

We would like to express our sincere thanks to our dear friends for their repeated selfless assistance and support as well as for unforgettable impressions given to our kids. We are looking forward to developing our friendly relations with you!

WOW KIDS FORUM 2019

Do you know how to make good use of your day off spending interesting time, having fun and using it to your advantage?

It was exactly the way our children spent their Saturday participating in the WOW KIDS FORUM sponsored by "Blagomay" Charity Foundation. It's not the first time when members of our Center take part in such event, the main objective of which is to help children realize their mission in life, prepare them for their adult future, inspire and motivate them for achievements, and demonstrate them their opportunities and resources. Children participated in workshops, met people who had positive success story having covered a challenging way of formation from a boarding school graduate up to a successful businessman. Satisfied, slightly tired, yet with positive emotions and impressions, pupils returned to the Center being absolutely convinced that the future is theirs to make. And the most important thing the children have realized is that every day and every minute they are approaching their dream.
